Improvement

- Parag had a still head position and had a perfectly balanced follow through after hitting the big shots.
- He was watching the ball till the end and shifting the body weight when necessary is just top notch.
- He changed his mindset a lot, the approach has been just phenomenal. He looks very confident after being promoted up the order and the management backed him.
- He has been the most improved player in this season's IPL with an Avg of 52.1. Hope he continues to do the same in the upcoming years.
